WARRANTY: RECSYSTEM®, carries, like our acrylic fabric RECACRIL®, limited 5 year warranty. This warranty covers lightfastness and loss of resistance caused by exposure to normal atmospheric conditions. It does not cover installation supplied by the dealer.

CLEANING AND CARE: To avoid accumulation such as dirt or any other particles it is necessary to clean the fabric regularly. RECSYSTEM® can be cleaned without removing installation. Just brush off the dirt and clean it with a solution of natural soap and water and do not use any detergents. Finally remove soap thoroughly.
